GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN,

DEPARTMENT OF THE PROVINCIAL SECRETARY.

REGINA, *March 8, 1907.*

To His Honour,

AMEDEE EMMANUEL FORGET,

Lieutenant Governor of the Province of Saskatchewan.

SIR,—

I have the honour to submit herewith the Report of the Department of the Provincial Secretary for the eighteen months ending the 28th February, 1907, being the period during which the Province of Saskatchewan has been in existence.

I have the honour to be, Sir,

Your obedient servant,

W. R. MOTHERWELL,

Provincial Secretary.

PROVINCIAL SECRETARY'S DEPARTMENT.

REGINA, *March 5, 1907.*

The HON. W. R. MOTHERWELL,
Provincial Secretary.

SIR,—

I have the honour to submit herewith the report of the Department of the Provincial Secretary for the eighteen months ended the 28th February, 1907, being the period during which the Province of Saskatchewan has been in existence.

I am pleased to report that the volume of the work intrusted to the department has increased enormously in all its branches owing to the phenomenal prosperity of the new Province and nothing I could say would more fully demonstrate this than to point to its revenue which, up to the 31st December last had increased 50 per cent over that of the whole of the North-West Territories during its most prosperous period as the following table will show:

* Owing to change in The Foreign Companies Ordinance all Foreign Companies were compelled to register.

**Administration of Marriage License Ordinance transferred to this department.

This progress is still more marked when it is taken into consideration that Saskatchewan represents only half the area of the late North-West Territories and that the progress of Alberta, taken from the same viewpoint, has been fully equal to our own.

A mirror of the material advance of the Province, so far as this department is concerned, is afforded by the number of Joint Stock Companies incorporated under The Companies Ordinance and of extraprovincial companies registered under the provisions of The Foreign Companies Ordinance as by the one is reflected the activity and commercial prosperity of the residents within our borders, and by the other the confidence inspired in the future of the Province in the minds of outside capitalists and manufacturers. Hardly any large company operating in any part of the Dominion, whether in insurance, trust, loan, investment, land, elevator or lumber but has secured the right to carry on its business in this Province and in many cases has erected offices and warehouses in one or other of our business centres. From the enquiries received almost daily these would appear but the fringe of future development. Following out this theory it is interesting to view the rise and progress of Saskatchewan as illustrated by the companies incorporated in successive years and to note, not only the increase in numbers but the prosperity shown by the constantly increasing amount of capital invested in individual concerns as indicated by the following table from \$137,000 in 1887 to \$13,403,000 in 1906:

Year	No. of companies incorporated	Total capital
1887-----	4	\$137,000
1888-----	---	---
1889-----	6	41,500
1890-----	8	126,000
1891-----	11	337,000
1892-----	12	110,000
1893-----	13	166,000
1894-----	7	81,500
1895-----	1	5,000
1896-----	4	38,200
1897-----	3	45,000
1898-----	10	87,800
1899-----	19	1,323,400
1900-----	8	120,000
1901-----	26	3,607,500
1902-----	60	5,812,600
1903-----	83	5,421,500
1904-----	116	5,495,500
1905-----	119	8,281,800
1906-----	119	13,403,000

Amongst the earliest objects for which companies were formed in the North-West Territories appears to have been the handling of grain and for recreation—*panem et circenses*—as out of 46 companies incorporated in the first 14 years fourteen were milling and elevator companies and ten for purposes of recreation either as turf clubs, curling and hockey and skating rink companies.

The first land company was incorporated in 1901 and the rapid growth of this industry is not without interest.

LAND COMPANIES in the North-West Territories and Province of Saskatchewan.

Year	No. of companies incorporated	Amount of capital stock
1901.....	1	\$ 15,000
1902.....	3	400,000
1903.....	8	1,220,000
1904.....	4	335,000
1905.....	7	636,200
1906.....	29	9,335,000

An amendment was passed at the last session of the Legislative Assembly excluding railway construction and the business of a trust company from the objects for which a joint stock company may be incorporated within the Province. Six companies obtained charters by private legislation last session.

MARRIAGE LICENSES.

An amendment to The Marriage Ordinance passed last year made it compulsory for all licenses to be paid for by the issuer in advance. This appears to have worked very satisfactorily and in a short time I hope there will be no outstanding balances on the Marriage Register. The number of licenses issued during the eighteen months the Province has been in existence has been 2,335.

AUCTIONEERS AND PEDLERS.

There has been a proportionate increase in the issue of auctioneers' licenses.

I am of the opinion that the full revenue for pedler licenses is not received. Many persons following this calling, particularly along the lines of railway, appear to be under the impression that having paid the fee exacted by the various municipalities they have done all that is required of them and make no attempt to obtain a Provincial license, while certain others whose field of action lies outside the limits of municipalities seem prepared to face the risk of being punished for being without any license at all. It would be well, in my opinion, if the law were so amended that municipal licenses could only be issued on the production of a Provincial one.

MOTOR LICENSES.

An Act to regulate the Speed and Operation of Motor Vehicles on Highways was passed last session and placed under the administration of this department. It provides, amongst other things, that every

vehicle shall carry a number and license but though every effort has been made by the department to bring the provisions of the Act to the notice of all owners of motors only twenty-four licenses were applied for though it is certain that a much larger number were in operation within the Province. It is probable that one or two prosecutions will be necessary in the spring in order that the provisions of the Act may be more fully complied with.

MECHANICS AND LITERARY INSTITUTES.

During the last session of the Legislative Assembly an Act was passed amending the Ordinance respecting Mechanics' and Literary Institutes which provided for the payment of a grant of one dollar for every dollar expended by the institute on the purchase of books, magazines and newspapers so far as not to exceed a total grant in any one year of \$50.00.

Regulations were made by Order in Council prescribing the forms to be used when applying for such grants.

The only Mechanics and Literary Institutes at present organised are:

The Mechanics and Literary Institute of Prince Albert.

The Mechanics and Literary Institute of Wolseley.

The Mechanics and Literary Institute of Grenfell.

The Mechanics and Literary Institute of Whitewood.

The Mechanics and Literary Institute of Weyburn.

The Mechanics and Literary Institute of Hillburn.

Of these the only ones entitled to participate in the grant were Prince Albert, Wolseley and Weyburn, but there is reason to believe that as the provisions of the amendment has as far as possible been brought to the attention of those concerned in the management of these institutes more general advantage will be taken of the opportunity to obtain the government grant.

LIBRARY.

Following the procedure now generally in use in all the larger libraries in Canada and the United States the system of decimal classification has been adopted in the Legislative Library of Saskatchewan. All books are now divided into ten classes as follows: General Works—in this section will be found all works relating to library economy, etc., philosophy, religion, sociology, philology, natural science, useful arts, fine arts, literature and history. As an appendix I have grouped all Sessional Papers, Departmental Reports, etc., which though in reality belonging to history can be more readily found by this means.

For the first time probably in the history of the Library a complete catalogue has been prepared of every book it contains. This catalogue is however as yet incomplete as the later lists made from time to time have to be compared to find out what books are missing and considerable time must be spent in preparing cross references and listing duplicate copies. The catalogue now prepared offers in the shortest possible

compass a clue by which any book required may readily be found and consists of a dictionary catalogue and a subject catalogue. No attempt has as yet been made to prepare an author catalogue but I hope to have this commenced in the near future as at present there is no ready means of ascertaining if all the works of any given author are on our shelves.

The library since the catalogue was made and the books arranged has been moved into the south building so that a rearrangement of the books is again necessary. Three new cases have been added and there is now plenty of shelf room.

On the division of the North-West Territories into the two Provinces of Saskatchewan and Alberta it was decided that the former Province should keep the North-West Legislative Library intact and that Alberta should have a money grant in lieu of its share.

The following list shows the classes into which the books are divided:
